

Defoamer S

(Silicone Defoamer)

DEFOAMER S effectively destroys even the most persistent foams, and being inert, Defoamer S lasts to prevent foam from coming back.

DEFOAMER S is a water-based silicone emulsion which disperses easily and efficiently.

DEFOAMER S can be stored at temperatures up to 130 F and several freeze-thaw cycles .

DEFOAMER S is resistant to biodegradation

Specific Gravity:	0.96-0.98
Density:	8.0- 8.2
Appearance/Odor:	Opaque Liquid
Solubility in Water:	Dispersible
pH (neat):	5.5-7.5

See MSDS

DEFOAMER S is recommended at 0.5 - 2 gallons per thousand

DEFOAMER S is available in 5 gallon pails, 55 gallon drums and 275 gallon totes.
